Abstract Write a thrilling and catching abstract here.

1 Introduction

Wooh, time to write a made up paper

1.1 Background

In order to understand this study you should understand.

1. Thing one.
2. Thing two¹.
3. Thing Three.

2 Methodology

In order to invent this thing or analyze this data, we're going to need to use the equation below.

$$Heuristic_{\alpha}(x) = \sqrt{\sum Allofthethings}, \quad (1)$$

Of course we trust that equation because of the work done in [2] which may or may not agree with the dude that wrote [1].

3 Another Section

I don't know, you could have a boring data collection bit here, or an architecture, or something. I'm sure it'll be mostly filler.

4 Filler Section 2

As shown in figure 1, Freud is not displaying Penis envy by holding a cigar.

I swear it's just a cigar.

5 Discussion and Results

According to all of this data and our unbiased analysis, all of our beliefs have been validated. Just check out Table 1.

¹With a footnote

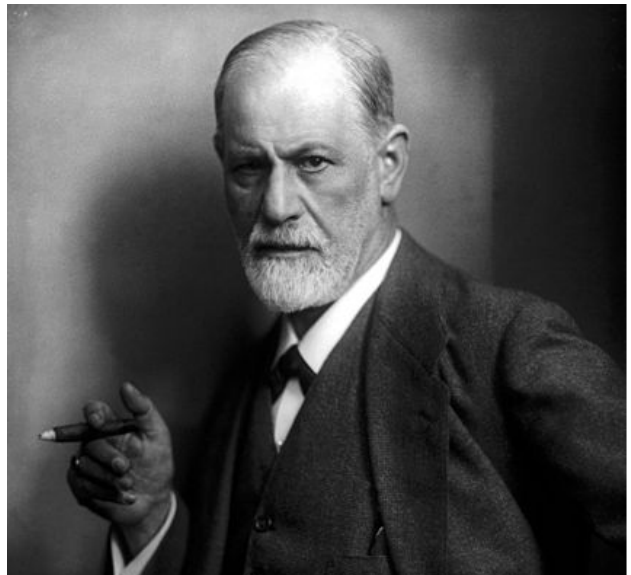

Fig. 1: Freud Holding just a cigar.

Col1	Col2	Col2	Col3
1	6	87837	787
2	7	78	5415

4	545	18744	7560
5	88	788	6344

Table 1: Table to prove how right you are.

Wow, what astounding results!

6 Conclusion

In conclusion, I am very smart

7 Acknowledgements

I did this all by myself, so I'm kinda awesome. But I guess I hocked and edited this template from the cowshed article so thanks for that William Roper
