

Position in List	Number
1	1
2	3
3	4
4	6
5	7
6	8
7	9
8	10
9	11
10	14
11	15
12	16
13	18
14	19
15	20
16	About two dozen
17	(888) 280-4331
18	137
19	The exact diameter of the observable universe, in nanometers.
20	V (the Roman version of five was allowed to stay, cuz who doesn't love the Roman Empire?)
21	Definitely not 5
22	3.14159235
23	26
24	5.5
25	7.0
26	January 20 <sup>th</sup>
27	The size of the set of all sets of things that are not numbers or sets of numbers.
28	2024
29	1492
30	1776 (for some reason the American delegation insisted on this number very adamantly, so we decided to add it to the list so they would shut up)
31	10:13 AM
32	14" pepperoni pizza, add mushrooms
33	3 <sup>rd</sup> place
34	Seriously, don't try to sneak 5 on this list. It's <i>not</i> a number
35	01001110 01100101 01110110 01100101 01110010 00100000 01100111 01101111 01101110 01101110 01100001 00100000 01100111 01101001 01110110 01100101 00100000 01111001 01101111 01110101 00100000 01110101 01110000 00101100 00100000 01101110 01100101 01110110 01100101 01110010 00100000 01100111 01101111 01101110 01101110 01100001 00100000 01101100 01100101 01110100 00100000 01111001

	01101111 01110101 00100000 01100100 01101111 01110111 01101110 00101100 00100000 01101110 01100101 01110110 01100101 01110010 00100000 01100111 01101111 01101110 01101110 01100001 00100000 01110010 01110101 01101110 00100000 01100001 01110010 01101111 01110101 01101110 01100100 00100000 01100001 01101110 01100100 00100000 01100100 01100101 01110011 01100101 01110010 01110100 00100000 01111001 01101111 01110101 00101110
36	$6.9 \times 10^{420}$ (the number of times you've been rejected by a girl)
37	$1.1 \times 10^{1337}$ (the mass of yo mama in kilograms)
38	$1.12 \times 10^{15}$ (the number of people Trump claimed attended his inauguration)
39	69
40	137 (yep that's right, we put this one twice. But who cares? Does anyone read the SI anyway?)
41	The number of numbers on this list of numbers, numerically speaking
42	Five--or wait no, we cut that one
43	One almond
44	A really bad amount of money
45	\$20 billion bailout
46	4 bucks a gallon
47	three shillings, two pence, and six and a half knickerbockers
48	c (or E/m <sup>2</sup> , if you prefer)
49	The number of minutes in a while
50	Half of a half of a half of a half of a half of a half (Xeno insisted on this one)
51	<small>The smallest possible font size</small>
52	420
53	10% extra legroom
54	The number of miles in a marathon
55	log(0)
56	1x1=2
57	1/998001
58	Graham's number
59	TREE(3)
60	43 Chicken McNuggets
61	- 1/12
62	Jeff Bezos's net worth
63	Negative infinity
64	11, in Dutch
65	80085
66	70
67	37
68	73
69	49
70	49 but spicy
71	42
72	867-5309 (Jenny's number)

109	5
110	I'm getting tired of this
111	Really, do you know how hard it is to put together a list of 137 funny numbers?
112	Making 137 jokes about NUMBERS? They're like...the least funny thing ever.
113	Even the alphabet is funnier than numbers! W??? Are you kidding? What a stupid letter?
114	Ok, deep breath in....1, 3, 4, 6...and out...1,3,4,6....You can do this....
115	115
116	116
117	117
118	118
119	119
120	120
121	115.0
122	116.0
123	117.0
124	118.0
125	119.0
126	120.0
127	one fish
128	two fish
129	red fish
130	blue fish
131	the time it took me to make this list (waaaayyyy too long)
132	1E-23
133	1E-E
134	Five (and a half....hah, gotcha there for a second)
135	1.111111111
136	1.11111111
137	1.1
